

FLORIAN WELLMMEYER

Generalist Engineer — Robotics & Embedded Systems

wellmeyerflorian5@gmail.com | +33 6 15 68 54 08 (WhatsApp) | [LinkedIn Profile](#) | [Portfolio Website](#)

PROFILE

Robotics and embedded systems engineer with expertise in Python, C++, C#, ROS 2, and real-time systems. Experienced in software development, hardware integration, and autonomous robotic applications. But also with an industrial background.

PROFESSIONAL EXPERIENCE

Airbus Helicopters (S.I.I.)

02/2026 – Present

Software Developer Engineer · Marignane Airbus Airport, France

Software implementation for pilot helmet systems; simulation and testing on cockpit simulation tools.

Skills: C/C++, DOORS, Simulation tools

InterDigital R&D

04/2025 – 09/2025

Haptics Engineering Intern · Rennes, France

Built control systems for a UR3e robot with a Geomagic Touch device and a cross-platform haptic communication pipeline (C++/Python/C#) over TCP/Ethernet, testing MPEG haptic encoding standards.

Skills: Robotics, Python, C#, C++, TCP/Ethernet, MPEG haptics, UR3e, RTDE, Polyscope

Technology & Strategy (T&S) Bosch

03/2024 – 07/2024

Assistant Engineering Intern · Stuttgart, Germany

Validated Bosch ADAS parking-assistance systems for the Volkswagen Group via real-world testing, data analysis, and automated test procedures (V-cycle methodology).

Skills: CANape, ODIS, CAN bus, ADAS, V&V processes

PROJECTS

AUV Navigation System (AUV/ROV)

Full Autonomous Underwater Vehicle navigation system. Waypoint navigation

Skills: Arduino, C/C++, IMU/MPU9250, Kalman filter, FastAPI, WebSockets, Python, ROS2, Gazebo, URDF, Plotly.js, HTML5 Canvas, I2C, Serial/UART

Pick-and-Place System – ABB Robot

Pick-and-place application with ABB robot; object detection via Python & OpenCV, motion programming in RobotStudio.

Skills: RobotStudio, Python, OpenCV

Underwater Sound Classification — ReefPulse collaboration

ML pipeline classifying marine species from reef audio recordings. .wav feature extraction and AI model training.

Skills: Machine Learning, audio processing, AI models, WAV file analysis

TECHNICAL SKILLS

Programming Languages: Python · C/C++ · C# · Java · SQL · Assembly · MPEG · URScript · HTML · CSS · XML

Robotics & Simulation: ROS / ROS2 · RViz · RQT · Gazebo · CoppeliaSim · RTDE · Polyscope · RobotStudio (ABB) · Unity

Software: STM32CubeIDE · Arduino · Linux · Git · CANape · CANoe · ODIS · Jira · SolidWorks · Catia · Fusion 360 / Cura · Unity · Unity Pro · Schneider Electric · Artifactory · LTspice · DOORS · ESP32 · Raspberry Pi · PowerBI

Protocols: I2C · SPI · UART · CAN bus · TCP/IP · Serial

EDUCATION

INP Bretagne — National Polytechnic Institute of Brittany

2025

Engineering Degree — Robotics, Autonomous Mobile Robotics, Embedded Systems, Mechatronics. Erasmus UIS Norway (2023).

University of Western Brittany

2025

MBA — Business Management & Administration.

Joseph Vallot High School

2020

Baccalaureate.

LANGUAGES

French (Mother tongue) · **English** (B2 – TOEIC) · **German** (B1) · **Arabic** (Beginner)
